CRONAMERE ALPINE NURSERIES

SHORE ROAD
GREENS FARMS, CONN.

FOREWORD

WE are presenting this list of hardy Alpine plants as a forerunner to our catalog, which will be brought out later. We have attempted to bring together a collection of rare alpine and rock plants from many regions throughout the world and have found that all we have listed are perfectly hardy in New England.

While we carry all the common varieties usually listed, it is our desire to have our customers use only the finer types of plants, as the cost is practically the same and the effect produced by these beautiful plants gives boundless pleasure and interest.

Certainly, no phase of gardening gives greater reward than Rock Gardening.

Terms of Sale

Cash must accompany order. We do not fill orders by mail for less than \$2.50.

Our plants are strong and healthy. We carry both potted and field grown material.

While it is our aim and ambition to have every plant true to name, we can give no guarantee.

We pack with great care and ship only good healthy stock, but cannot be liable for cases of failure due to travel or other causes.

Instructions for planting, care and cultivation are enclosed with all stock sold.

We are prepared to design and construct pools and rock gardens in a very attractive manner.

We should be glad to have our representative call without obligation to discuss your wishes with you.

Sufficient money should be added to your order to cover the cost of postage. Our terms are strictly cash, but we will ship C.O.D. provided 25 per cent. of the order is received in cash at the time it is placed.
